Todd Nevill – Key Grip

PERSONAL STATEMENT

I have worked in the New Zealand film industry for over a decade, the majority of my work has been completed in dramatic feature film and television. During that time I have worked with many Directors of Photography, using a wide variety of techniques, cameras and grip equipment. Although at this stage I do not own a grip truck, I have the use of a fantastic fully equipped truck that is second to none.

I have been Key Grip on numerous television commercials, three feature films, two New Zealand TV Series's and a casual Key Grip on several US Television drama series. I believe I am a great communicator, a problem solver and a hard working member of any crew. I look forward to working with you.

San Pareil - unparalleled/without equal
