With over 30 years experience as a hair and make-up artist, my career has given me the opportunity to work on a variety of projects both locally and internationally. I am experienced in all aspects of make-up application from working on feature films, TV shows, TV commercials to fashion, weddings and teaching my craft. I have had extensive experience working in television, most recently spending 5 years as senior hair and make-up artist at one of New Zealand's National TV channels, Maori Television.
