Film Location New Zealand provides Scouting and Location Management services for Motion and Stills productions throughout New Zealand.

Whilst scouting I work with the Director & DOP to look beyond the location brief to actively look and identify the individual shots and potential angle options.

Working with the Production Teams as Location Manager I then ensure that maximum value is extracted from all locations.

I have scouted and managed shoots all over the world with crews up to 400 pax, through my own production companies in Australia and New Zealand.

With over 35 years knowledge & experience in TVC, Stills and Live Event Production you can be assured of a quick, efficient, logical and creative response to your project needs.

Key reasons to shoot in NZ:

Stunning Locations

Our seasons are the opposite of the Northern Hemisphere so you can use your winter to shoot in our summer.

Many different locations all within easy driving distances.

Numerous micro-climates ranging from sub-tropical to deserts to snowy alpine peaks and plateaus.

Favourable exchange rates
