I am a highly organised, motivated and efficient individual, who is skilled in working in a fast-paced industry and thrive within a time restrictive environment. I have worked in Film, Events, Theatre and Exhibitions to help grow my skill set in organization and planning in a time driven environment. In the last year I have returned back to full-time freelance work as my passion for the industry only kept growing and I had expanded my skill set in other areas to help me advance my career in the Film/TV environment.
