

# ROYCE DAWSON

## ART DIRECTOR

### PROFILE

Kia ora, my name is Royce, and I know that having the skill set to do the job is a given. However, finding a crew member who gels with the team can be hard to find. If you want the best of both worlds, look no further. With over 15 years of experience and over 300 projects under my belt, I've seen it all, from small budgets to multi-million dollar projects. I understand that every job is different, from creating murder scenes to large-scale party scenes. I have the experience and resourcefulness to come in under budget and on time. Give me a call to chat about your project.
