Cinematography Is Our Passion And Our Craft

I have been working in the Film Industry for over a decade and have experienced first hand both the glory and physicality of Film, and the rise of technology with the birth of the Digital age. Having the Knowledge of the Old and the Skills of the New, I am able to blend the two disciplines for success in any intense or challenging shooting environment's . My experience ranges from Sound Stages To Mountain tops. Having worked in both the New Zealand and Australian film industries on Feature Films and TV Drama's . High Altitude shoots in the Everest Region of the Himalay's and Filming on the Sacred Rivers of Northern India to Vertical Ice Faces on the side of Mt Cook in New Zealand's Southern Alps.
