Technical Knowledge

Fully proficient with all current camera systems, even that old film stuff!

Work Experience

I have been working in the Camera Department from 2001 to the present date both in New Zealand and in the UK. Although the majority of my work in New Zealand has been commercials I have been involved in a few features and TV dramas as well. In the UK I spent the first 2 or 3 years mainly working on 16mm TV drama.

Below is a hugely abbreviated list of Production Credits. Full list provided on request.
