New Zealand

### ABOUT ME

Upon leaving the adventure tourism industry in '99 and finding myself on set hearing the first shout of "Action!" was a surreal and exciting moment for me, hooking me into the biz ever since. From those early days as a grip and grip/LX assist I've progressed through the ranks as a technocrane tech/grip, best boy and key grip, finally forming my own company, Grip Solutions in 2008. My projects have been varied in size and scale, from "Wrecked" in Fiji and "Sweet Tooth" to international movies, local dramas and TVCs. I look forward to future projects and the first shout of "Action!"
