Auckland based – NZ Full Drivers License – Member of NZSG & NZCS

Competent with loading 16mm & 35mm film

Having been a photographer and videographer for a number of years, working primarily within the NZ Music industry, I made the shift to assistant camera work in late 2022. I began freelancing part time in 2023 until the completion of my Bachelor of Audio Production from SAE Auckland (class of 2023).

I have worked across commercials, music videos, web series, broadcast, and short films, with a long-term aim of being a career AC. I am a fast learner, extremely focused and calm on set, and love working amongst a good crew. I have experience working with steadicams, remote heads, and multiple camera systems including film/celluloid.

I'm looking forward to expanding my networks within the industry and gaining more experience as a camera assistant.

The following projects are a small selection of those that I have completed, having done countless jobs not captured in this document.

References available on request. See bottom of document for equipment.
