

Daria Chesnokova

About Me

I step onto set ready to solve problems, adjust quickly, and keep things moving. While I'm still building my skills, I'm excited to explore opportunities in any department. I don't wait to be told what to do – I look, listen, and figure it out. With a background in photography and videography, I understand how visuals come together, and I bring that awareness into every task. I'm here to learn, contribute, and make the job easier for everyone around me.
